Workshop Overview

In this ICT course, learn how to measure an organization's ICT accessibility and assess the importance of maintaining an inclusive workplace for employees. This two-week course consists of modules detailing some of the primary ICT accessibility obstacles facing by organizations today.

This courseware will enable you to identify requirements for developing ICT enabled research capabilities and for enhancing organizational efficiencies. In view of the foregoing, this courseware is designed to cover both individual needs as well as organizational requisites.

Objectives of the Workshop

- Successfully Use ICT for making classrooms more inclusive/E-Learning
- Evaluation and selection of resources and to address multiple learning abilities
- Use ICT Tools, Software Applications and eresources effectively
- Integrate ICT in Teaching Learning Process-Virtual and Smart Classrooms
- Handling E-Resource/E-Journals/E-Governance
