About the Course

Social science research is characterised by the diversity of theoretical perspectives, methodological strategies, data collection practices and analysis techniques. This has made it always necessary to provide training and orientation on a continuing basis to young faculty members to equip them with advanced methodological skills. It has been observed that many young researchers cannot produce research works of high quality because they are either not in touch with the latest research tools and techniques or do not have the proper orientation to use traditional research methods efficiently. The problem has further been aggravated by a lack of opportunities for the social science faculty members to refine their methodological skills and to get insight into fresh areas of research in their respective fields. On the other hand, the rapid advancement of knowledge in all disciplines of social sciences has made research an activity of solving problems, which adds new dimensions and generalisations on the basis of gathered empirical evidence. Recognising this need, Department of Political Science, University of Kalyani is organising **Two Weeks Capacity Building Programme for Social Science Faculty Members** from 09 to 22 March, 2024. The Capacity Building Programme is sponsored by Indian Council of Social Science Research, New Delhi. The objectives of this programme are to develop the capacity for conceptualizing new research and writing research proposals. The programme is envisaged to enhance skills to prepare an appropriate synopsis inculcating a just literature review, objective, research question, hypotheses, research design, data collection techniques and analysis data for research. The Capacity Building Programme is also designed to enhance the capacity for writing research papers for publication, developing the capacity for planning and writing a book and developing the acumen for undertaking sponsored research.
