About FDP

In today's rapidly evolving digital world, the integration of Artificial Intelligence (AI) into education is reshaping how knowledge is created, delivered, and consumed. The transition 'from chalkboard to chatbot' represents a paradigm shift in the teaching-learning process, where traditional pedagogies are complemented by intelligent tools. This Faculty Development Programme (FDP) aims to equip educators and academic professionals with the knowledge and practical skills to embrace AI technologies and meaningfully integrate them into their teaching and research practices.

University of Kalyani

Seven-Day Faculty Development Programme on From Chalkboard to Chatbot: Integrating AI into the Teaching-Learning Process

(Virtual Mode)
May 14 – 20, 2025

Organized by CIRM in Collaboration with IQAC

METHODOLOGY

- Interactive Lectures
- Live Demonstrations
- Hands-on Practice Sessions
- Panel Discussions and Expert Talks
- Q&A and Peer Learning Activities

COURSE CO-ORDINATORS

Dr. Ujjal Marjit
Prof. Parthasarathi Mukhopadhyay

📞 6291339793 / 7063895041

TARGET PARTICIPANTS

- Faculty Members and Academic Researchers
- Doctoral Students
- Research Scholars and Assistants
- Library and Information Science (LIS) Professionals
- Educational Technologists and Curriculum Designers

OBJECTIVES

✓ ·To explore the transformative potential of AI in the teaching-learning process.

✓ To provide hands-on experience with AI tools relevant to pedagogy and academic research

✓ To foster awareness of ethical and responsible AI use in education

✓ To inspire faculty to reimagine classroom engagement and assessment through AI

✓ To bridge the gap between traditional teaching methods and AI-enhanced education

FDP CONTENT

IIntroduction to the Role of AI in Education and Tools for Literature Review

AI Tools for academic research

Exploring AI tools for enhancing academic writing and streamlining the publication process.

AI-assisted data analysis, data analytic, data collection

Address ethical concerns, data privacy, and the shift toward AI-assisted pedagogy.

Hands-on sessions with practical use of AI tools through guided exercises and collaborative mini projects.

AI tools for teaching and learning

Using AI tools for Personalized Learning

AI Content Detection Tools

AI-assisted reference management and literature matrix

PARTICIPATION FEES

✓ Faculty Members/Academic Researchers/LISProfessional/ Academic Administrators - Rs 1500/-

✓ Doctoral Students/Research Fellows/Associates/Assistants /ECR -Rs 750/-

OPEN FOR REGISTRATION !

✓ Last date of Receiving Application 13th May, 2025
