**Last date of Abstract Submission: 10<sup>th</sup> June.2026**

## About the Department

Established in 1958 as a government-sponsored Teachers' Training College, the Department has a rich legacy of over four decades in the dissemination of knowledge. It expanded its academic and research programmes in 1970-71 with the introduction of MA/M.Sc courses in Education, followed by the initiation of research activities and the M.Phil programme, the first of its kind in Eastern India. The B.Ed. programme received permanent NCTE recognition in 1999, and in 2000 the Department was upgraded to an Institute of Advanced Studies in Education (IASE) by the Government of West Bengal and MHRD. Central grants supported significant infrastructure and ICT development. The Department introduced the NCTE-recognized M.Ed. programme and developed curricula for in-service teacher education. It has successfully organized national seminars, refresher courses, and workshops, produced NET/SET qualifiers, Ph.D. scholars, and contributed substantially to teacher and faculty recruitment, guided by its vision of academic excellence rooted in Indian tradition.

## Resource Person

### **Prof. K. Srinivas**

Head ICT & Project Management Unit  
HOD (I/c) Education Finance  
Chairperson eLearning Cell  
Chief Information Security Officer (CISO)  
NIEPA [Deemed to be University]

Director, IQAC, University of Kalyani

### **Keynote Speaker:**

### **Prof. P.C. Biswas**

Retd. Prof. Dept. of Education  
Ex-Dean, Faculty of Education, University of Kalyani

## About the Seminar

In this context, the Department of Education, University of Kalyani is organising an International Seminar on "Contextualizing AI in Education and Research." The seminar aims to bring together academicians, researchers, teacher educators, policymakers, and students from different parts of the country and abroad.

The seminar will provide a platform for sharing ideas, presenting research work, and engaging in meaningful discussions on the role of AI in education and research, particularly in relation to diverse educational contexts.

### **Objectives of the Seminar**

- To comprehend the role of Artificial Intelligence in the field of education and research**
- To analyse the relevance of AI in curriculum development and policy framing**
- To examine changes in teaching-learning processes due to AI and digital technologies**
- To discuss the advancement of assessment process applying AI**
- To discuss ethical and social issues related to the use of AI**
- To encourage research and innovation in AI-based educational practices**
- To facilitate exchange of ideas among scholars, researchers, and practitioners**
